

ERRATUM

The editors of Volume 58, Number 2 regret the following error, which appeared in Joshua Banks Mailman's article, "Babbitt's *Canonical Form* Revisited: Codes and Metaphors for Epistemology." We apologize for the error and any inconvenience or confusion it may have caused.

On page 230, a disjunction symbol (\vee) was omitted from the third of three logical expressions (the expression that represents the cumulative set of registral states at section 4 of *Canonical Form*). The expressions should read:

- $\bar{L}.\bar{M}.\bar{H} \vee L.\bar{M}.\bar{H} \vee L.M.\bar{H}$
- $\bar{L}.\bar{M}.\bar{H} \vee L.\bar{M}.\bar{H} \vee L.M.\bar{H} \vee L.M.H$
- $\bar{L}.\bar{M}.\bar{H} \vee L.\bar{M}.\bar{H} \vee L.M.\bar{H} \vee L.M.H \vee \bar{L}.M.H$
